## 2024\_28\_III\_OOPS Using Java Lab

### 2028\_REC\_OOPS using Java\_Week 4\_Q4

Attempt : 1

Total Mark : 10

Marks Obtained : 10

#### **Section 1 : Coding**

##### **1. Problem Statement**

Arjun is learning how to filter words from a sentence based on grammar rules. He wants to identify the valid words in a sentence.

A word is considered valid if it satisfies all these conditions:

The word contains only alphabets (a–z, A–Z). The word length is at least 2 characters. The word should not contain digits or special characters.

Your task is to read a sentence and print all the valid words in it.

##### ***Input Format***

The input contains a single line containing a sentence S.

##### ***Output Format***

The output prints all the valid words separated by spaces.

If no valid word exists, print "No valid words."

Refer to the sample output for formatting specifications.

### **Sample Test Case**

Input: Hello world1 123 ab" @#\$ Hi

Output: Hello Hi

### **Answer**

```
// You are using Java
import java.util.Scanner;
public class Main{
    public static void main(String[] args){
        Scanner sc=new Scanner(System.in);
        String in=sc.nextLine();
        String[] words=in.split(" ");
        String result="";
        for(String word: words){
            boolean valid=true;
            if(word.length()<2) valid=false;
            else{
                for(char c: word.toCharArray()){
                    if(!Character.isLetter(c)){
                        valid=false;
                        break;
                    }
                }
            }
            if(valid){
                if(result.isEmpty()){
                    result=word;
                }else{
                    result=result+" "+word;
                }
            }
        }
        if(result.isEmpty()){
            System.out.println("No valid words.");
        }else{
            System.out.println(result);
        }
    }
}
```

```
        System.out.println("No valid words.");
    }else{
        System.out.println(result);
    }
}
```

**Status :** Correct

**Marks :** 10/10
